### **The Topuito Isles** **Northern Mozambique** **Fact sheet: Island Activities and Facilities**

*“Life on Topuito can be calm, quiet and lazy or it can be active, adventurous, exciting, whichever you choose.”*

**Beaches:** Both Caldeira and Nejovo Islands have beaches all around. On Caldeira the beach is 2 kilometres around while on Nejovo there is one kilometre of white sand beach. The beach begins at the foot of your villa down to the ocean.

**Bird watching:** The River Larde and its estuaries is home to many indigenous water birds and other tropical birds.

**Day trips and excursions:** Dhow sailing trips can be organised as well as exploration and bird watching trips through the river estuaries. Visits to the community villages can also be arranged.

**Dining:** The restaurant on Caldeira Island is open to all resort guests as well as private villa owners and will have a no-menu concept. Our chef will take inspiration each day from the fresh ingredients to arrive on the islands, be from farm or directly from the sea.

Drinks can be enjoyed on the wide open air deck or around the pool at any time.

On Nejovo Island there will be a bar and restaurant as part of the beach club available for the exclusive use of the owners of the private villas and their guests.

**Fishing:** The waters around the islands are full of deep sea game fish such as tuna, mackerel, king fish, king mackerel, grouper, snapper and dorado. Fishing excursions can be arranged through the sports centre.

**Fitness centre:** There is a small fitness centre in the main lodge area which is for use by all residents and guests on the islands. It will include basic gym equipment such as cardiovascular trainers and weights as well as yoga mats, and stability balls.

**Photo opportunities:** Every moment on Topuito is a photo opportunity. Underwater cameras are suggested. There is as much to see below the water, if not more, as above.

**Sailing:** Traditional dhows are available for sailing trips either to the mainland or to the other island. Sunset or sunrise sails can be arranged.

**Shopping:** Each island will have a small boutique shop offering a range of essential and luxury items such as toiletries, sunblock, chocolates, wine, books and curios. Private villa owners will need to pre-order groceries to be available on their arrival at their Topuito home and can be done on a weekly basis during their stay.

**Spa services:** Spa treatments will be available at the main island lodges and villa owners can request spa treatments for the privacy of their own home.

**Water sports:** With water all around, water sports are a major attraction at Topuito. From scuba diving and snorkelling to deep sea and off boat fly fishing to kayaking and sailing, there is something for people of all levels and interests.

**Concierge and butler services:** There will be basic butler services available for private villa owners. Butler duties will include serving meals and drinks, arranging and setting up comfortable shaded spots on the beach,

**Cleaning and maintenance:** Cleaning staff are committed to keeping each villa spotlessly clean and as pristine as the surrounds while ground staff will maintain the surrounding greenery, preserving the natural beauty of the island and general maintenance staff ensure each villa is cared for all year round.

**Security:** Due to the remoteness of the islands, crime isn't much of a problem. Each island will however have 24 hour security patrols and there will be safes for any valuables.

**Landscaping:** Landscaping on the islands will use only indigenous and natural vegetation from the islands and surrounding areas and will enhance the surroundings and feeling of privacy and tranquility of each villa.
